Referrals/Whitelist	06
Legal Disclaimer	07

It was 2105 year, in a future far away from now. People were mad that all of their money has disappeared and the financial system has collapsed. A young team of entrepreneurs decided to go back in time and try to save the financial freedom of people, by bringing Farmarok to them.

Farmarok has been inspired by the cataclysmic event of **Ragnarok**, and aims to bring more people to the place where they feel they are financially free. The project's strongest point will be the community, because the more people they bring in and show the project, the bigger payout they will have.

Utilities

⁽¹⁾ The project will start with a lottery, where each ticket costs FROK tokens in value of 1 BNB!

The ticket gives you eligibility to participate in the weekly draw for 80% out of 2,5% buy/sell lottery tax. Remained 20% out of 2,5% buy/sell lottery tax will be added to the super jackpot pool. Super jackpot draw will take place always the last day in the month. Super jackpot pool has 20% out of 2,5% buy/sell lottery tax weekly accumulation, plus the whole 100% of 2,5% last week collected buy/sell lottery tax. Super jackpot ticket costs FORK tokens in Value of 2 BNB!

The more lottery tickets you buy, the higher random winning pos-

Example calculation and winning possibilities!

Weekly draw:

Daily trading volume of \$1M = \$7M/week

2,5% from \$7M = \$175K, 80%(\$140K USDT) will be given to one lucky winner.

Remaining 20%(\$35K USDT) will be added to the super jackpot pool.

Monthly draw:

Example with 4 weeks in a month!

Super jackpot pool will be as follow:

\$35K USDT x 3 weeks = \$105K USDT plus \$175K USDT, the 4th week 100% from 2,5% buy/sell lottery tax. Super jackpot of \$280K USDT will be given to one lucky winner.

All process is done automatically through our dApp, ticket registration and win distribution. NOTE, win distribution is same wallet as ticket registration.

Even if you didn't win the lottery, the project concept is designed in a way that everyone should be able to gain profits by just **HODL!**

Partners

-can also build their own lotteries on our website using their own tokens and create more investor flow for their own projects.

UpandDown

Bet on if the price of famous assets like BTC and ETH to go "UP" or "DOWN", each 15 minutes. Prize is calculated based on others peoples positions. If you guess correctly you WIN
